PROJECTS

PET STORE   february -2023

React js   deploy

- **Pet store** offers a wide range of **pets for sale,** from dogs and cats to birds and reptiles, each with **detailed descriptions and photos** to help you choose the right pet for you.
- This website has a product section that includes all the filtering features available on any e-commerce website such as **categories,sort, search, price range, color, and grid and list views**.
- If you click on any product, its single page will open where you can find related information. **React's hooks** and state management have been used for this, along with the use of **Redux Toolkit**.
- Use of **Styled Component** for css. That provide - Component-based styling, Dynamic styling, Code organization and many more
- We use **Intl.NumberFormat** for formatting currencies.

LIBRARY MANAGEMENT SYSTEM   december -2022

React js   deploy

- The L**ibrary Management System** software helps in reducing operational costs. Managing a library manually is labor intensive and an **immense amount of paperwork** is involved. An automated system reduces the need for **manpower and stationery**.
- Google **Book API** used to display Books data in category section & search bar at home page with the help of **Axios library.**
- Fully responsive website and use react hooks ,router-dom.
